Frameworks

- React Js
- Next Js
- Bootstrap

About Me

I'm a student of Software Engineering and a front-end developer with almost 1+ year of experience in the industry. I can create websites by using advanced frameworks like React and Next js. I like to give my pages semantics with HTML5, styling with CSS3, functionality & interactions with JavaScript, all this under the React framework.

Experience

Fiver 2022
Freelancer
I have completed some projects on fiver with 5 star brating and Reviews
